

The 2nd International N=1 Symposium

State-of-the art in Single-Case Experimental Designs

14, 15 and 16 April 2021

*With contributions by
Tom Kratochwill, Robyn Tate, Rumen Manolov, Kimberly
Vannest, Sunita Vohra, Suzanne McDonald and others*

The symposium will include keynote lectures, small hands-on workshops, and interactive poster sessions. Keynote lectures with accompanying slides will be pre-recorded and made available to registered participants prior to the event. Participation to the 10 workshops is limited to 30 per workshop. Interested? Don't wait and register:
